

This is how to sort your waste:

Collection every 14. day. Use the light brown food bags you have received.

Food waste

Leftovers, coffee filters and grounds, tea bags and used drying sheets. Dog waste bags should be put here too. Put the food waste in the light brown bags, tie it and put it in the can. If you need new bags, please tie a bag to the lid of the garbage can before next collection. That way the drivers will leave a roll of bags. You can also get bags at our recycling stations.

Collection every 6. week. Put cardboard/paper freely in the can.

Paper and cardboard

Paper, news paper and magazines
Cartons that contained various foods
Envelopes
Boxes for pizza, cereal etc.
Cardboard
Writing paper

NB! Wrapping paper and wet and/or dirty cardboard and paper should be thrown in the black can.

Collection every 14. day. Put the waste in bags or freely in the can.

Waste is the leftover waste after sorting:

Plastic straws
Gum, snus og cigarettes
Cotton and cotton swabs
Contact lenses
Sanitary waste and diapers
Various products of plastic
Glass that is not from packaging like plates, cups, porcelain and ceramics
Dirty and/or wet cardboard
Wrapping paper
CD and VHS
Broken shoes
Packaging of metal

You can't put waste from the garden in any of your cans. It has to be delivered at our recycling stations.

Collection every 8. week.
Put glass freely in the can.
Do not use plastic bags.

Glass packaging is glass that contained food, beverages or other household items:

Empty glass containers for jam, taco sauce, baby food, perfumes etc.
Glass bottles for soda and alcohol
NB! Products of glass that is not a container, such as cups, plates, drinking glasses, should not be sorted with glass packaging.
